

Discussion 1

Wednesday, Apr 1, 2026

Make a copy of this document so that you can fill it out. Submit the link on Canvas. Ensure that **visibility settings allow your TA to view the document**. You are encouraged to work on this in a group, but **submit your work to Canvas separately**.

1. Write down the names of three other people in your discussion section. From each person, collect at least one method of contacting them (for example: phone number, email, Discord, Facebook, whatever you want).
2. Write down one thing you have in common with all three of these people (something not related to this class).

Canvas “Scavenger Hunt”

3. What are the dates of the three exams for this class?
4. What is the policy on late work?
5. If your final grade in this class is an 89.7%, can your grade be rounded to an A-? How?
6. How much of your grade does discussion section attendance count for?
7. What is the date that Homework 7 is due?
8. What does REPL stand for?
9. Using the R REPL in Canvas, compute the decimal form of $5/7$.
10. Navigate to the R point-and-click tool. What is the average height of the cherry trees in the `cherrytrees` dataset?

If you finish the above early, consider using the time to fill out the [Google form for Homework 0](#).
